Contents of volume 15 · 1994

Annandale JG, Stockle CO: Fluctuation of crop evapotranspiration coefficients with weather: a sensitivity analysis 1
Aravamuthan V → Singh VP
Ayars JE, Hutmacher RB: Crop coefficients for irrigating cotton in the presence of groundwater 45
Aydin M: Hydraulic properties and water balance of a clay soil cropped with cotton 17

Bellos CV → Sakkas JG

Clemmens AJ → Strelkoff TS
Cahoon JE → Zara PM
Cahoon J, Eisenhauer D: Inferences of the cycle ratio-time surged flow infiltration function 173
Carefoot JM, Major DJ: Effect of irrigation application depth on cereal production in the semi-arid climate of southern Alberta 9

Douglas T → Stevens RM

Eching SO, Hopmans JW, Wallender WW, MacIntyre JL, Peters D: Estimation of local and regional components of drainflow from an irrigated field 153
Eisenhauer D → Cahoon J

Ferguson R → Zara PM

Halloran GM → Rogers ME
Hopmans JW → Eching SO
Hutmacher RB → Ayars JE

Joseph ES → Singh VP

Katopodes ND: Hydrodynamics of surface irrigation: vertical structure of the surge front 101
Klonaraki MN → Sakkas JG
Kumbhare PS → Sharma DP

MacIntyre JL → Eching SO
Major DJ → Carefoot JM
Moran MS: Irrigation management in Arizona using satellites and airplanes 35

Nicolas ME → Rogers ME
Noble CL → Rogers ME

Oosterbaan RJ → Sharma DP

Peters D → Eching SO

Ragusa SR, Zoysa DS de, Rengasamy P: The effect of microorganisms, salinity and turbidity on hydraulic conductivity of irrigation channel soil 159
Rao KVGK → Sharma DP
Reddy JM: Optimization of furrow irrigation system design parameters considering drainage and runoff water quality constraints 123
Reddy JM, Singh VP: Modeling and error analysis of kinematic-wave equations of furrow irrigation 113
Rengasamy P → Ragusa SR
Rogers ME, Noble CL, Nicolas ME, Halloran GM: Leaf, stolon and root growth of white clover (*Trifolium repens* L.) in response to irrigation with saline water 183

Sakkas JG, Bellos CV, Klonaraki MN: Numerical computation of surface irrigation 83
Sharma DP, Rao KVGK, Singh KN, Kumbhare PS, Oosterbaan RJ: Conjunctive use of saline and non-saline irrigation waters in semi-arid regions 25
Selley R → Zara PM
Singh KN → Sharma DP
Singh VP → Reddy JM
Singh VP, Aravamuthan V, Joseph ES: Errors of kinematic-wave and diffusion-wave approximations for time-independent flows in infiltrating channels 137
Stevens RM, Douglas T: Distribution of grapevine roots and salt under drip and full-ground cover microjet irrigation systems 147
Stockle CO → Annandale JG
Strelkoff TS, Clemmens AJ: Dimensional analysis in surface irrigation 57

Wallender WW → Eching SO

Zara PM, Selley R, Cahoon JE, Ferguson R: Simulating N leaching in furrow irrigated corn 167

Zoysa DS de → Ragusa SR
